Charles Kibet

Full-Stack Developer

I am a full-stack developer with a passion for crafting digital experiences that are not only visually stunning but also highly intuitive. My goal is to design and develop solutions that engage users and provide seamless interactions, ensuring each project delights and exceeds expectations.

Web development

Experience

Software Developer

Haki App

July 2024 - Aug 2024

- Teamed up with a group of developers, brainstormed and came up with an idea to build Haki app.
- Haki app aimed to solve problems faced daily by citizens to get legal services. It mainly connects citizens to lawyers.
- Worked alongside UI/UX designers to translate user requirements into functional, clean, and maintainable code.

Software Developer

Finance Pal

March 2024 - May 2024

- Designed and developed finance pal, just as the name suggests aims to help users manage their finances
- Collaborated with cross-functional teams to help users put all their financial recordings into one application and track their expenditure and also provide more suggestions on how to manage their funds and even where they can invest to get more income.
